html | css | php | JavaScript | .Net | c# | Python | Java | C++ | Nest.js | typescript

PROJECTS

CURRENT

Personal Finance Tracker

I build finance tracking web application using NestJS, TypeScript, and PostgreSQL. Key features include user authentication, paycheck logging, recurring income setup, side hustle tracking, account linking with bank sync, and debt tracking with loan payoff calculations. Integrated admin panel for user management and email notifications. User can see their future forecast and can get their best plan also make their own plan.
